

TABLES

Acting sustainably is what we do. With our beginnings in Australia, since 1984 we have been designing and manufacturing commercial furniture products and components for global work place environments. With sustainability at the core of everything we do, we are dedicated to the reduction of environmental impact from our products and actions.

INCOGNITO

TABLE SYSTEM

ThinkingWorks™
By Thinking Ergonomix

INCOGNITO is a table base system by **ThinkingWorks**.
Offering fixed and folding solutions for desks, meeting tables,
boardroom tables and occasional tables **INCOGNITO**
accommodates tops of infinite length.

INCOGNITO

TABLE SYSTEM

Designed for casual meeting tables and conferencing facilities, the **INCOGNITO** range of table bases also includes a four-star multi-leg base for round, square or irregular shaped larger tables.

INCOGNITO is available in three foot sizes and provides plenty of leg room for user comfort. Meeting tables can be designed to suit the requirement and custom sized in length.

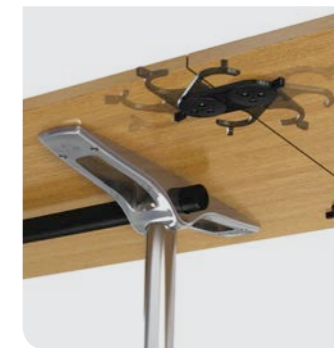

INCOGNITO Multi-leg Boardroom Table in Black.

INCOGNITO has quality castors on mobile tables and adjustable glides on fixed tables. Folding tables also provide the option for modesty panels and cable clips and come standard with lockable linking mechanisms.

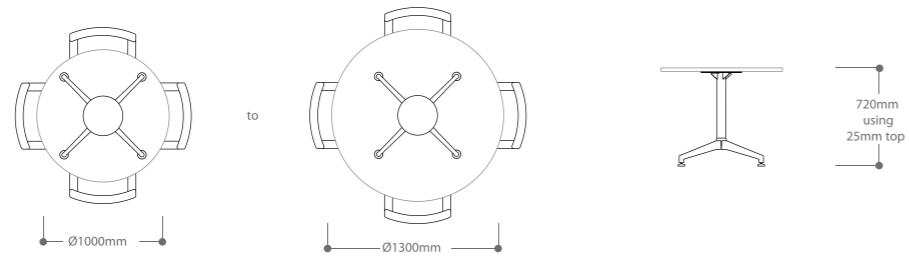

INCOGNITO folding tables provide a tilt-top option that can accommodate tables up to one meter wide. Folding tables are ideal for conference, training and flexible meeting requirements.

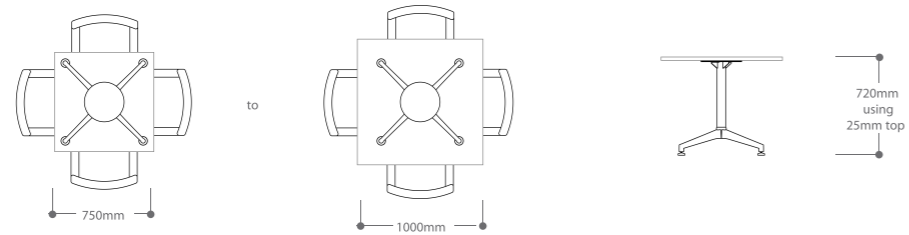

INCOGNITO folding tables are available in two foot sizes and provide plenty of leg room for user comfort.

STANDARD CONFIGURATIONS

4 STAR

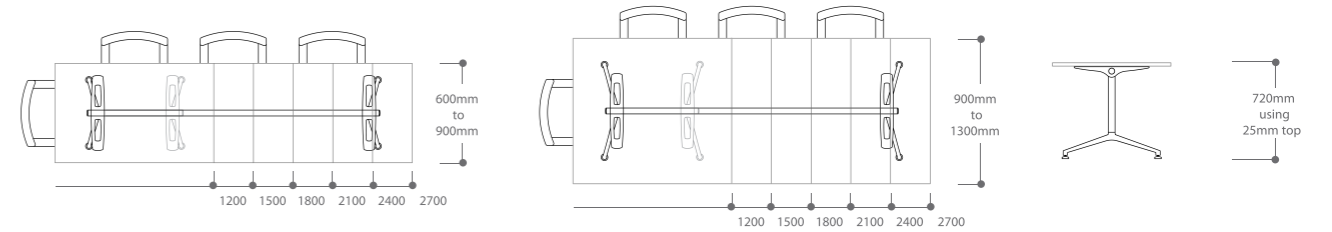

suits tables from 1000mm Ø minimum to 1300mm Ø maximum

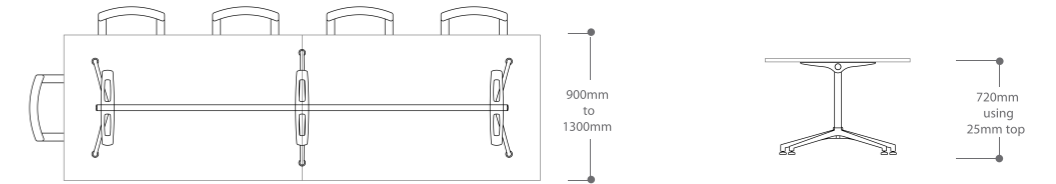

suits tables from 750mm square minimum to 1000mm square maximum

RECTANGULAR

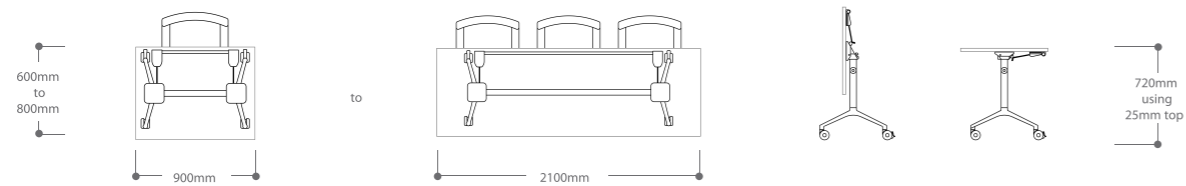

optional rail lengths accommodate a range of table lengths

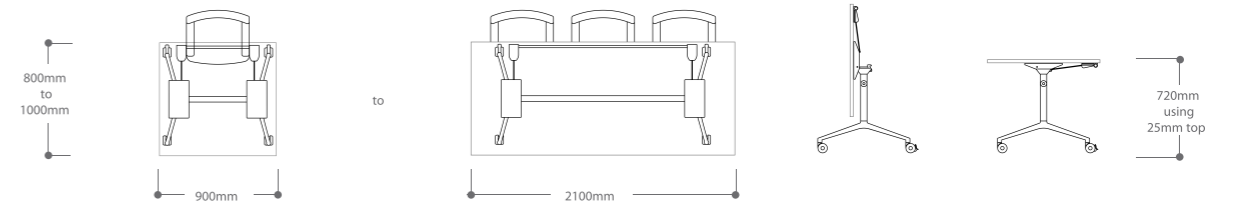

multiple piece top - infinite length by installing additional legs at table top joins

FOLDING TABLE - SMALL FOOT

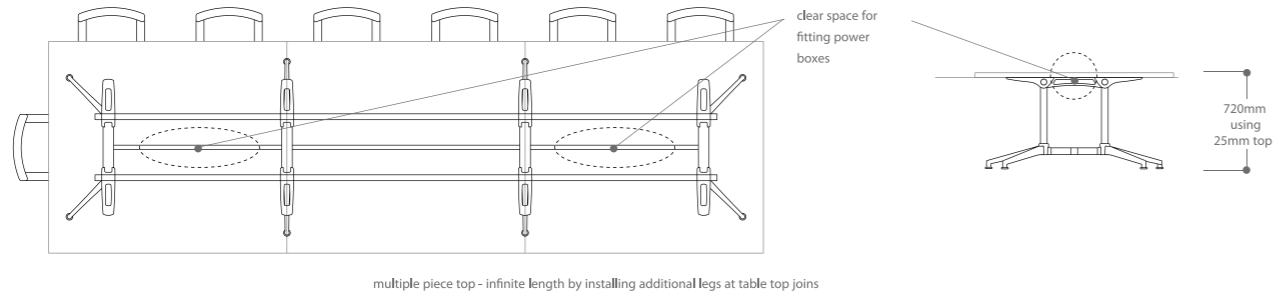

available in four beam lengths to suit tables from 900mm minimum to 2100mm maximum

FOLDING TABLE - LARGE FOOT

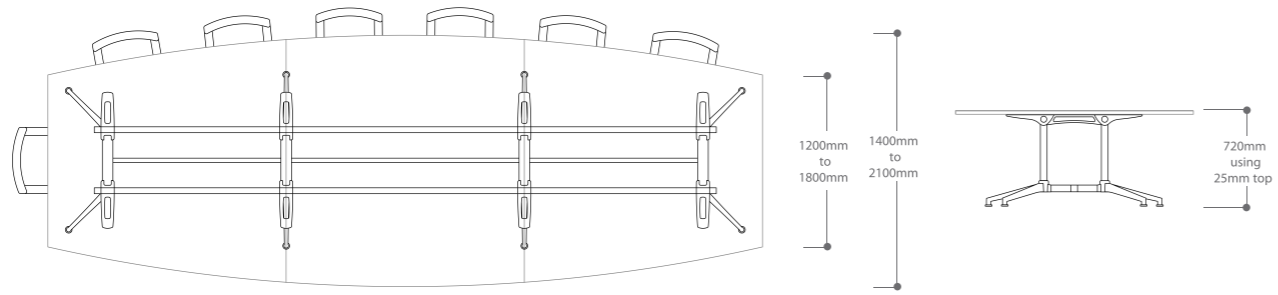

available in four beam lengths to suit tables from 900mm minimum to 2100mm maximum

MULTI-LEG

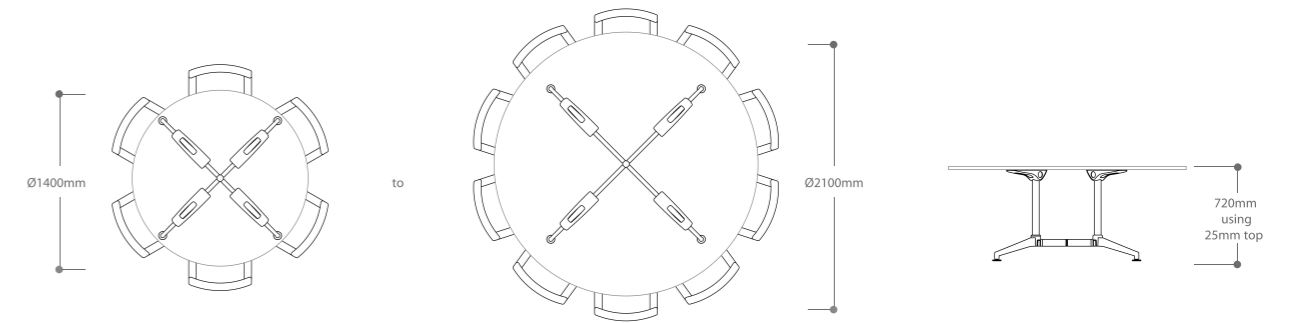

multiple piece top - infinite length by installing additional legs at table top joins

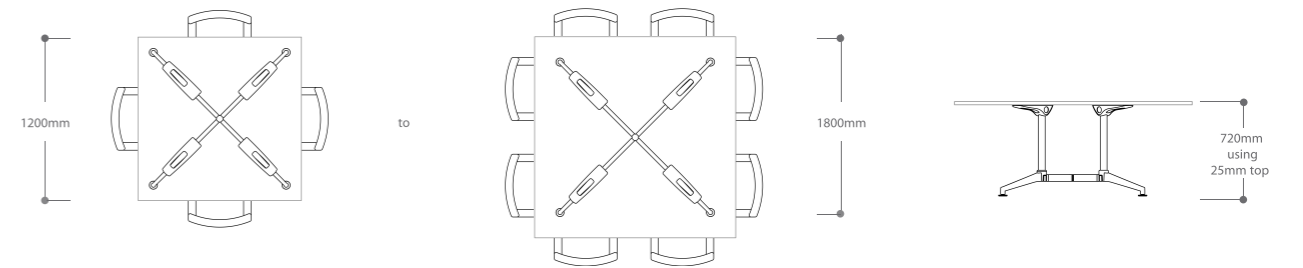

suits multiple piece boat shape table tops

MULTI-LEG 4 STAR

suits tables from 1400mm Ø minimum to 2100mm Ø maximum

suits tables from 1200mm square minimum to 1800mm square maximum

THE ENVIRONMENTAL CHOICE

DESIGN FOR ENVIRONMENT

ThinkingWorks designs **INCOGNITO** with the view to minimise environmental impacts across the entire product life cycle. A "Life Cycle Assessment" has been conducted to assist us to understand what materials and finishes have the lowest environmental impact. In addition, a "Finite Element Analysis" assists the design team to identify environmentally preferable materials and minimal material input for greater strength. Recycled aluminium and steel are used in the components to an industry standard of a minimum 10%.

MODULAR

Common components are used to assist in modular design for different sizes and shapes of tables.

PRODUCT DURABILITY

ThinkingWorks warrants **INCOGNITO** for a period of 10 years. **INCOGNITO** meets demonstrated fitness for purpose and ThinkingWorks will provide replacements parts that are subject to wear, for a period of five years.

DESIGN FOR DISASSEMBLY

INCOGNITO table base can be easily disassembled with the use of non-specialist tools. All parts (plastic, aluminium & steel) can then be re-used or recycled through our re-use or recycling program.

END OF LIFE

ThinkingWorks has a Product Stewardship Policy and Program that will take back **INCOGNITO** at the end of its life cycle for re-use, recycling or re-processing.

TOXICITY

No heavy metals, hazardous materials, prohibited substances, or carcinogens are used in the manufacture of **INCOGNITO** Table base. This has been third party verified by Good Environmental Choice Australia (GECA).

INDOOR ENVIRONMENT QUALITY – VOLATILE ORGANIC COMPOUNDS (VOC)

Within the Australian market, **INCOGNITO** has been tested by CETEC Pty Ltd (NATA Accreditation 1231) and complies with the GBCA Total Volatile Organic compound (TVOC) emission limit <.5mg/item/hr. VOC Test certificates are available upon request.

GECA CERTIFIED PRODUCT (TABLE BASE ONLY)

GECA is the Australian member of the Global Ecolabelling Network (GEN). GEN is an international network of national Ecolabelling programs that operate to ISO14024. **INCOGNITO** has been independently, third party certified as an environmentally preferable product. Please note that chrome plating is not covered under GECA certification.

ENVIRONMENTAL CLAIMS

GECA certified products have been third party verified to ensure all product environmental claims follow the guidelines set out in AS/NZS ISO14021: 2000 (Environmental labels and declarations – Self-declared environmental claims (TYPE 11 environmental labelling) to avoid any misleading or false statements.

COMPANY CARBON OFFSETTING

ThinkingWorks offsets the carbon emissions from the business's operations through a certified offsetting program registered under the global Verified Carbon Standard.

Our journey towards sustainability was initiated not as a response to social trends, but because we truly believe it is the right thing to do. ThinkingWorks is proud of the achievements we have made in our attempts to reduce the environmental impact of our products and our business overall.

We have demonstrated this by:

- ▶ GECA Eco-labelling product certification
- ▶ LOW VOC products
- ▶ Implementation of our Product Stewardship Program
- ▶ Environmental Management System certification, AS/NZS ISO14001: 2004
- ▶ Environmental and Social legal compliance for the Australian & UK operations
- ▶ Ongoing staff engagement to assist us in reducing environmental impacts and carbon emissions
- ▶ Company business practices have been offset through the retirement of certified carbon credits
- ▶ Ensuring product environmental claims are third party verified
- ▶ Use of Green Power at all manufacturing and warehouse sites
- ▶ Creating change within our supply chain to ensure they too are acting responsibly for both the environment and with regards to social compliance

We are aiming to be industry leaders in creating high quality commercial office furniture with the lowest environmental impacts, with this in mind, we appreciate that there is always need for continual improvement and innovation.

Note: Carbon emissions created by the transportation from Australia to the United Kingdom are offset through the retirement of certified carbon credits.
