Kontakt 180

New to Maxton Fox is the Kontakt 180 workstation system. This is a unique workstation solution, designed by Adam Harrigan and Sonny Pirreca, and manufactured by Maxton Fox. Highly versatile, it adapts to accommodate the System 25 screen system, and is designed to suit open plan, collaborative working environments. Its unique leg design and versatile modular frame is complemented by pinnable screens with fabric upholstery, innovative concealed under-desk power and data, and continuous under structure support. Easy to assemble and disassemble, the Kontakt 180 comes with laminate, compact laminate and solid timber board options, and return worktop options.
