The airy comfort of mesh

With the move to more agile organizations and collaborative work, providing seating for workers and visitors engaged in a variety of tasks each day requires a flexible approach. Reply meets all these needs with one versatile and harmonious family of seating solutions that combine comfortable seating with stylish design.

Personalized comfort and support

Airy and light, the soft touch of the Reply's tensioned mesh back follows the body's natural movement. Combined with the highly responsive synchro mechanism, the task chair provides immediate and constant support for natural movement throughout the day. Simple controls place easy-to-use adjustments for personalizing comfort at your fingertips.

Make your visitors at home

Reply Side chairs give you a variety of choices and settings to accommodate a changing flow of visitors. This sled base style provides a fresh approach to group spaces, shaping destinations that facilitate quick and productive connections. The soft touch and natural support of the mesh back keeps guests relaxed and comfortable.

Slide, roll and carry-on collaborating

Collaboration comes easy with the versatile mobile and stackable options provided by the Reply Side of the family. Equally at home as guest seating in private office, team, conference, and training settings, its light weight and integrated handle makes it easy to slide, roll, stack and carry to anywhere you need an extra chair.

Pull up a chair

Reply is equally at home in contemporary open management settings. This mix of Reply task and side seating creates a cohesive look and feel to the workplace. Integrated handles make it easy to change the setting in moments from task intensive work to intimate team meeting without leaving the workspace.

SUSTAINABILITY

PEOPLE.PLANET.PROFIT

We take a life-cycle approach to the design, use and disposal of our products. From materials, production, transportation and use, right through to end of life, each element in the Reply range is designed to reduce its impact on the environment.
