The Modern Workplace

As the pace of change accelerates in the modern workplace, organisations pursue innovative solutions that proactively address their teams' emerging needs.

Steelcase's Global Workspace Study cast a spotlight on today's workforce needs — workstations that are not only dedicated and spacious but also private and attuned to their wellbeing.

In response to these demands, adaptable and flexible work environments are crucial. Companies now prioritize spaces that can adapt to various working styles and dynamics, boosting productivity and satisfaction.

Steelcase's Global Workspace Study revealed that people who like working from their office are:

Survey from Steelcase Global Research 2023

Migration SE Pro

Adaptability at Work

As a proven and trusted solution, Migration SE Pro is Steelcase's most comprehensive platform. It seamlessly adapts to any workspace, from fixed workstations to dynamic shared environments, with a range of height-adjustable applications, ergonomic heights, and intuitive controls.

New features, such as built-in soft edges and expanded range of privacy screens, enhance personalized comfort, essential for hybrid work settings.

Elevate Performance

Suboptimal work environments impact productivity. Poorly designed furniture impairs comfort, leading to decreased output and increased strain on well-being.

Migration SE Pro confronts this issue head-on by delivering an ergonomically advanced furniture solution that elevates workplace performance.

Migration SE Pro's wide height adjustability lets each team member find their ideal posture, from sitting to standing, boosting both well-being and productivity.

Inclusive Design

Designed for the 5th to the 95th height percentile, Migration SE Pro ensures your team is always working at their ergonomic best.

Extended Range: 650 – 1250mm

Basic Range: 720 – 1180mm

Faster. Quieter. Safer.

In the rhythm of a productive day, every moment counts. Migration SE Pro distinguishes itself by merging speed with silence, allowing users to transition between postures without a pause in their mental flow.

50mm/s

Speed of Adjustment

The quick height adjustment speed means less waiting, more doing.

< 48dB

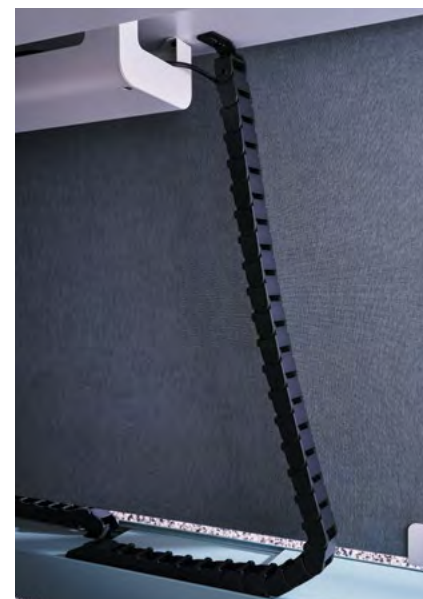

Concentration Maintenance

The quiet motor ensures that focus remains unbroken.

Anti-collision Technology

The advanced gyroscope sensor will trigger the anti-collision feature when it detects accelerated or angular speed changes, reversing the movement for two seconds to prevent damage.

Optimising Workspaces

Migration SE Pro is a platform designed for contemporary workspaces. From straightforward setups to complex, tech-centric configurations featuring versatile cable management, it ensures seamless integration and orderliness in technology-intensive environments, thus boosting productivity.

125kg

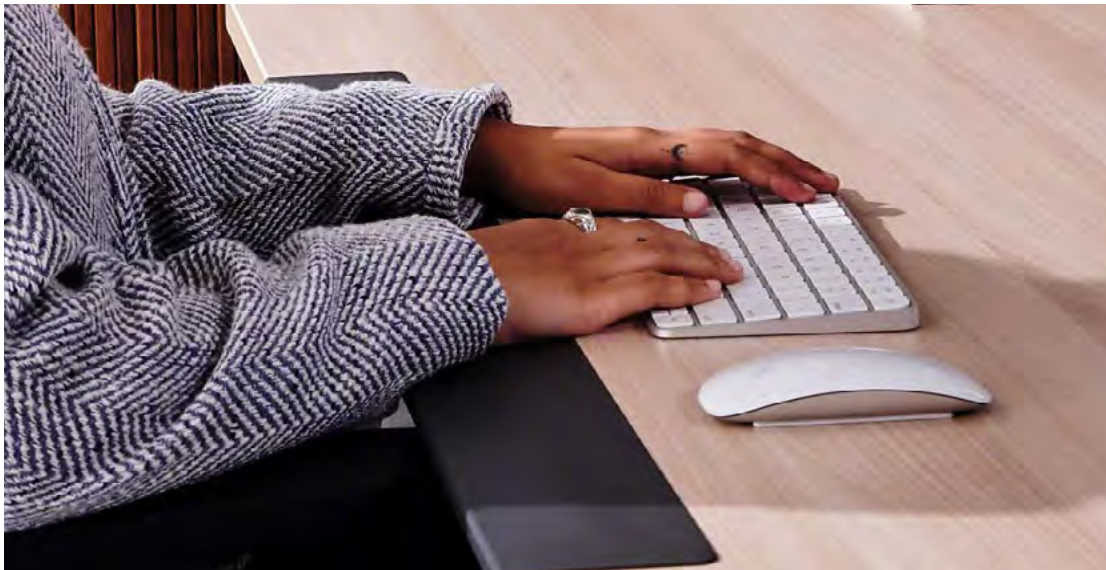

Robust Load Support

Designed to bear up to 125kg, Migration SE Pro accommodates extensive tech setups, including multiple monitors and specialized hardware, maintaining stability and reliability.

Advanced Cable Management

A discreet cable management system organizes and secures wires. With generous cable tray options and dynamic riser, the system supports optimal connectivity and a clutter-free environment.

Comfort at work is crucial for productivity and extends beyond adjustable heights. Workstations that are tailored to individual needs enhance focus and performance throughout the day, ensuring optimal comfort and efficiency.

Integrated Flipper
Power door provide easy access into the cable tray, making cable management and maintenance more convenient and hassle-free.

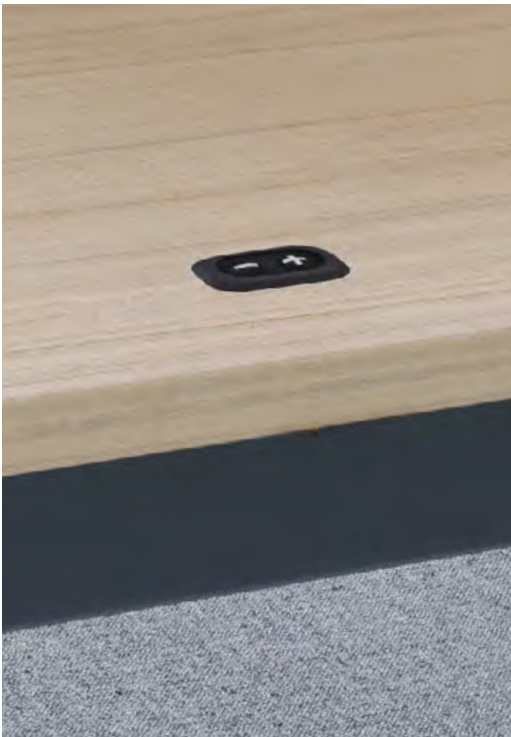

Comfort Soft Edge
Engineered to integrate seamlessly with Migration SE Pro, the Soft Edge offers a smooth, contoured transition that eases pressure on your wrists, forearms, shoulders, and neck. This helps prevent fatigue and enhances productivity, all while ensuring lasting durability.

You're in control

Migration SE Pro controllers, ranging from simple up/down to preset programmable options, offer speeds of 40 mm/s for basic and 50 mm/s for advanced settings. Adjusting your workstation is quick and effortless, whether assigned or shared.

Up/ Down
Quick and effortless desk height adjustments with a simple push of the up and down.

Simple Integrated
Let's you adjust the desk height without needing to reach under the worktop.

3 Preset Integrated
Save and switch between 3 height settings, with the display showing the current height (based on a 25mm top).

Paddle
Includes an OLED display and a sedentary reminder.

4 Preset
Offers quick access to 4 customized height settings and displays the desk height based on a 25mm top.

Privacy: The Ultimate Perk

While a major draw of working from the office is collaboration, we still spend large portions of the day on focused tasks. It's essential to have workspaces that offer both a personal touch and privacy, ensuring we can produce our best work.

Flex Curved Screens

Wrapped around the desk's corner, Flex Curved Screens provide maximum privacy by shielding front and side views. Mounted to the worksurface, they ensure consistent visual privacy at any height.

Sarto Screen

Offering excellent workstation delineation and light privacy, Sarto Screens blend aesthetics and performance, striking the perfect balance between privacy and face-to-face interaction in open offices, making them the top choice for privacy screens.

Style That Speaks To You

Transform your space with screens that offer both style and privacy. Choose from our range of customizable finishes to create a look that's sophisticated and personal while ensuring the privacy you need.

Mini Desk-Up Screen
Offers desk-level privacy with a 13mm fabric wrap and subtle stitching, in multiple fabric and metal options.

Mini Lateral Divider Screen
Detachable and fabric-wrapped with movable ends, offering flexible privacy and aesthetic customization.

Designers understand that creating a cohesive workspace is about crafting an environment where every element complements the next. Migration SE Pro integrates effortlessly with the full range of Steelcase's high-performance seating, storage, and soft furnishings. This synergy ensures that your design vision can be executed with functional efficiency alongside aesthetic appeal.

"Migration SE Pro transforms height-adjustable desks into vibrant, user-friendly workstations. We meticulously addressed client challenges, from innovative cable management to versatile configurations for modern workspaces."

Lead Designer for Migration SE Pro

In the hands of a creative, every detail matters. Migration SE Pro caters to this precision, offering a variety of customisation options that empower architects and designers to bring their unique visions to life. From the dual colour and sleekness of leg styles to the richness of desktop colours and finishes, every element is a choice.

Adaptable Aesthetics

With options for column shapes, worktop materials, edge profiles, and dual color tones, Migration SE Pro offers versatile design choices, blending seamlessly into any environment.

Open Space Adaptability
Migration SE Pro’s design excels in open-plan layouts, offering designers the freedom to craft arrangements that respond to the unique flow and function of the spaces they create.

Meeting Space Versatility

Migration SE Pro transforms meeting spaces into hubs of adaptability, featuring standalone desks and height-adjustable tables that promote a flexible and functional setting.

Diverse Configurations

Available as traditional desks, benches, meeting tables, and in specialized 90- and 120-degree arrangements, Migration SE Pro fits effortlessly into any floor plan.

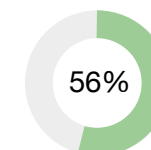

Committing to Sustainability

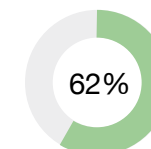

Assured Longevity

With a 12-year warranty, Migration SE Pro stands as a testament to Steelcase's confidence in its durability and quality, promising choosers peace of mind and reduced lifecycle costs.

Migration SE Pro blends smart design with sustainability, meeting the highest environmental standards while maintaining exceptional quality and performance. Its eco-friendly features support your sustainability goals effectively.

Total Recycled Content

Recyclability by Weight

Migration SE Pro will soon be available with a CarbonNeutral[®] product certification option.

Emissions are 100% offset by well-recognized projects that support climate change and social benefits, helping organizations achieve their carbon emissions goals and neutralizing the impact of production.

With every purchase of Migration SE Pro, the carbon emissions that we offset are equivalent to 292 miles driven by an average gasoline-powered vehicle.
