## **Seated for Success**

As a company that designs for people, we've seen a shift towards workspaces that focus on our physical, cognitive and social wellbeing. Observing, researching and understanding this shift underpins how we design for a work posture that continues to remain an essential part of the work day: sitting.

The result? Our Steelcase chairs are made to work with you and for you.

# Celebrating the Everyday

Designed and engineered by Steelcase global teams, the new Personality™ Plus incorporates Steelcase seating insights and ergonomic expertise to elevate the everyday comfort, performance and experience of people at work.

"Personality™ Plus leverages a lot of design and engineering know-how such as the design of the mechanism that adapts. This was a global project that include our leadership in Grand Rapids and Kuala Lumpur."

# Features summary

#### **Intuitive Support**

Unique spring activated mechanism personalizes comfort and supports your support while keeping users connected active movement throughout the day.

#### Fits with more users

Fluid 4D arms provides ergonomic to their work and technology.

#### Flexible supple lumbar

New molded lumbar has 2.5 times more flex for contoured lower back support.

# Seamless back comfort

Waterfall edge mesh assembly: soft edge backrest encourages easy lateral and torsional movement.

#### Long lasting seat comfort

Seat designed with Adaptive Bolstering: wide range of user sizes for long term sit comfort.

#### Ergonomic headrest

Height adjustable headrest provides additional head and neck support for long work periods.

Doing more with less drives how Steelcase designs and innovates. This principle keeps us curious and pushes us to create with efficiency. The Personality™ Plus is a manifestation of this practise, not only reflecting our commitment to moving from being carbon neutral to carbon negative, but also delivering high quality performance seating at an accessible price point.

# Made to go the distance

Personality<sup>™</sup> Plus goes further – exceeding industry test standards – to ensure that it lasts the trials and rigors of everyday use. Each chair includes a 12 year warranty to ensure continued quality.

# Design efficiency Sustainable quality

Smart design is efficient. Personality<sup>™</sup> Plus is made with 15% fewer parts than its predecessor, reducing the overall carbon footprint of this chair.

# Green performance

Themoplastic polyurethane (TPU) arm pads not only provide robustness through high daily usage, but are also a 100% degradable, eco-friendly material, offering performance you can feel good about in more ways than one.

### All about the base

We are always pushing sustainability. The Personality Plus base, for example, is made of 100% off grade recycled. Fortified to ensure performance and durability. Letting nothing go to waste – without compromising product quality and strength.

"Personality™ Plus has a gentler, more fluid and elegant silhouette that conveys a more minimalistic and modern aesthetic. We imagine this fits in not just corporate spaces, but in residential spaces as well."
