MARCO technical specification

MARCO
Height Adjustable Folding Table

Marco is an original, light & versatile table system, comprised of breakout, meeting and folding tables. Spanish for 'Framework', Marco incorporates a simple yet structural intelligent solution that is adaptable for all commercial spaces.

The new Marco height-adjustable folding table lets you work on the go in the office, classroom, or home. Easily stored when not in use, the HA Folding rolls with ease and allows for an ergonomic solution for you, wherever you go.
