

THREE BRAND NEW PRODUCT RANGES

from

Smith System®

Flowform™

Welcome to
Flowform™ and **Orbit™**,
Smith System's
design-forward
furniture for casual
learning spaces.

Each piece blends the concept of loose-fit freedom with sleek aesthetics and functional practicality. It's furniture that empowers students to curate their favorite spots for the learning that happens in every moment.

Intentional design for spontaneous learning.

Just like learning, furniture shouldn't be forced. Flowform™ and Orbit™ are refreshing in that way. They feature deliberate organic shapes with soft radii and rounded edging. We made no attempt to force pieces to interlock. They work individually or loosely slide together, giving students endless options to make micro-adjustments.

Radar GB, London

Roger Carr
Radar GB, London

“Students want the physical tools that allow them to take control. They want fun furniture options that help them fulfill their own pedagogy and functionality, while educators want durability, versatility and value. That’s where we began.”

-Roger Carr

MEET THE LINE UP

Innovative Design

Great design requires legendary minds. Our team includes Roger Carr and David Williams of Radar Design, London, the gurus behind our popular Flavors® seating and other legacy Smith System products. They transform ideas borne from lively design charrettes into products that students and teachers love.

Performance

For over 100 years, we've delivered educational furniture — and more. Our customers trust us to get their schools ready for opening day. We have a history of 98% on-time shipping, even during peak season. If there's a hiccup, our customer service is unmatched.

Quality + Value

Schools districts want the best outcomes for their students. So do we. But we also understand budgets are tight. We're always improving to offer the highest quality at a price districts can afford. Count on a limited 12-year warranty, with a lifetime frame warranty, too.

Individual Study Zones

Each piece is designed to first serve the singular student, allowing them the form and freedom to suit their individual needs. We've kept the seating and backrests strong, but light enough for students — even the little ones — to move.

Space Division

The highly durable vinyl upholstery is easy to wash and constructed to hold up over time, and multiple color options help these pieces blend into any learning space.

Group Study Zones

Small groups find success when constraints are removed. So, we aimed for a perfect blend of soft and supportive. Students can enjoy a variety of lounge postures, with backrests (for a sofa-like look) or without.

Large Casual Zones

As the number of students grows, so does the need for scalability. Simple shapes let students use pieces individually or combine them into countless configurations.
