THE WES COLLECTION: ARMCHAIR, LOUNGE, CONVEX LOUNGE, ANGLED ARM LOUNGE, CHAISE & OTTOMAN

The Wes lounge was named after its soft yet striking appearance, paying homage in name to film director Wes Anderson.

The collection is the result of a unique collaboration of work between the designer Tom Fereday and furniture maker Darren McKinnon. An exploration into the design refinement process itself, merging contemporary design systems with traditional upholstery techniques and craftsmanship.

Constructed entirely from sustainably sourced timber, GECA approved foams and water-based adhesives, finished with solid American Oak legs. Wes can be configured to create various forms that highlight seamless upholstery from every angle.

Complex yet minimal forms with entirely seamless upholstery from every angle.

Contrasting piping celebrates the soft form of the lounge.
